

An aerial photograph of a tropical coastline. On the left, a dense forest of palm trees borders a calm, light-colored lagoon. To the right of the lagoon is a sandy beach with some driftwood. Further right, the ocean features several waves with white foam breaking onto the shore. The overall lighting is soft, suggesting dawn or dusk.

ZUNYA TRANSLATES TO ZERO, “THE NO-THINGNESS, BECAUSE THE NOTHING IS NOT JUST NOTHING, IT IS ALL. IT IS VIBRANT WITH ALL POSSIBILITIES. IT IS POTENTIAL, ABSOLUTE POTENTIAL. IT IS UNMANIFESTED YET, BUT IT CONTAINS ALL. IN THE BEGINNING THERE IS NATURE, IN THE END THERE IS NATURE, SO WHY DO YOU MAKE SO MUCH FUSS IN THE MIDDLE? WHY DO YOU BECOME SO WORRIED, SO ANXIOUS, SO AMBITIOUS - WHY CREATE SUCH DESPAIR? NOTHINGNESS TO NOTHINGNESS IS THE WHOLE

BRAND MANIFEST

CO-CREATING A PROJECT OF REGENERATION

Imagine a new way of living. Imagine a regenerative living system, an organism co-created to reestablish our relation with nature. For some of us it is a regenerative hub, and for others, a laboratory of existence, for all, a place to call home. A space to gather and catalyse growth through experiential learning and transformational experiences. A space where all possibilities can co-exist as we embark on a journey of self-discovery and collective exploration. A space where we sparkle an inner revolution to reclaim our independence. The practices shared

here inspire us to become more conscious beings, masters of our own destiny as we let go of the old to create space for the new. A space that welcomes visionaries, dream-makers, risk-takers, explorers, freedom fighters, creators, humanitarian rock stars, teachers and experts. This space provides innovative living and experimental spaces immersed in the tropical forest with access to tools, technologies and ressources required to redefine the way we live. This space creates the conditions for human interrelations to flourish while generating educational content and experiences.

A Space where we **Co Create a conscious way of living**, by
elevating awareness, while breaking free from fear.

How we do it?

BRAND PHILOSOPHY

HOW WE DO IT

LEADING AND LIVING BY EXAMPLE

Co-creating and co-curating experiences that can spark our and others’ inner fire is just the first step to finding a clear path, developing our own passions, and discovering our single truth.

But we can’t do this alone, and we can’t simply keep these practices to ourselves either. We need a safe place where we can reach into the hearts and souls of the people that can make a difference in this world. We must have a place where we can enable them to connect with their “one true self“ through our journeys: Transformation and educational experiences.

How do we know this works? Because it’s what we’ve all been doing each one of US in this team. We are constantly co-creating our realities, and finding ways to elevate our own awareness. We do this in order to become more conscious human beings, enjoy the beautiful things in life, and promote a healthy way of living.

We constantly strive to be humble, happy, real, honest, genuine, balanced, at peace, present, content and, lastly, to learn how to love - and we’re continuously trying to help others’ do the same.

Co Creating a sustainable project of Regeneration,
Co-creating a program,
by curating an experience, and promoting
a transformative way of living.

Why?

BRAND PHILOSOPHY

WHY?

CHANGE IS NEEDED NOW, IF NOT US WHO AND IF NOT NOW WHEN?!

We live in unprecedented times. We’re currently facing a global crisis that has exposed the fragilities of our systems and our disconnection with ourselves, each other and nature. A crisis that will forever change our way of living. We are convinced that the only path toward world peace is inner peace.

The time is now, the moment when we embark in a process of regeneration.

If not now, when? If not us, who?

We need to understand that we are part of a whole, and that we all depend on each other and on this fragile Ecosystem that is our Mother Earth. A large percentage of the world’s scientists agree that we won’t survive unless we act together. This is why we need to co-create our own Prototype version of how the world should be. That’s why we start small: with a simple “Living concept” in Costa Rica.

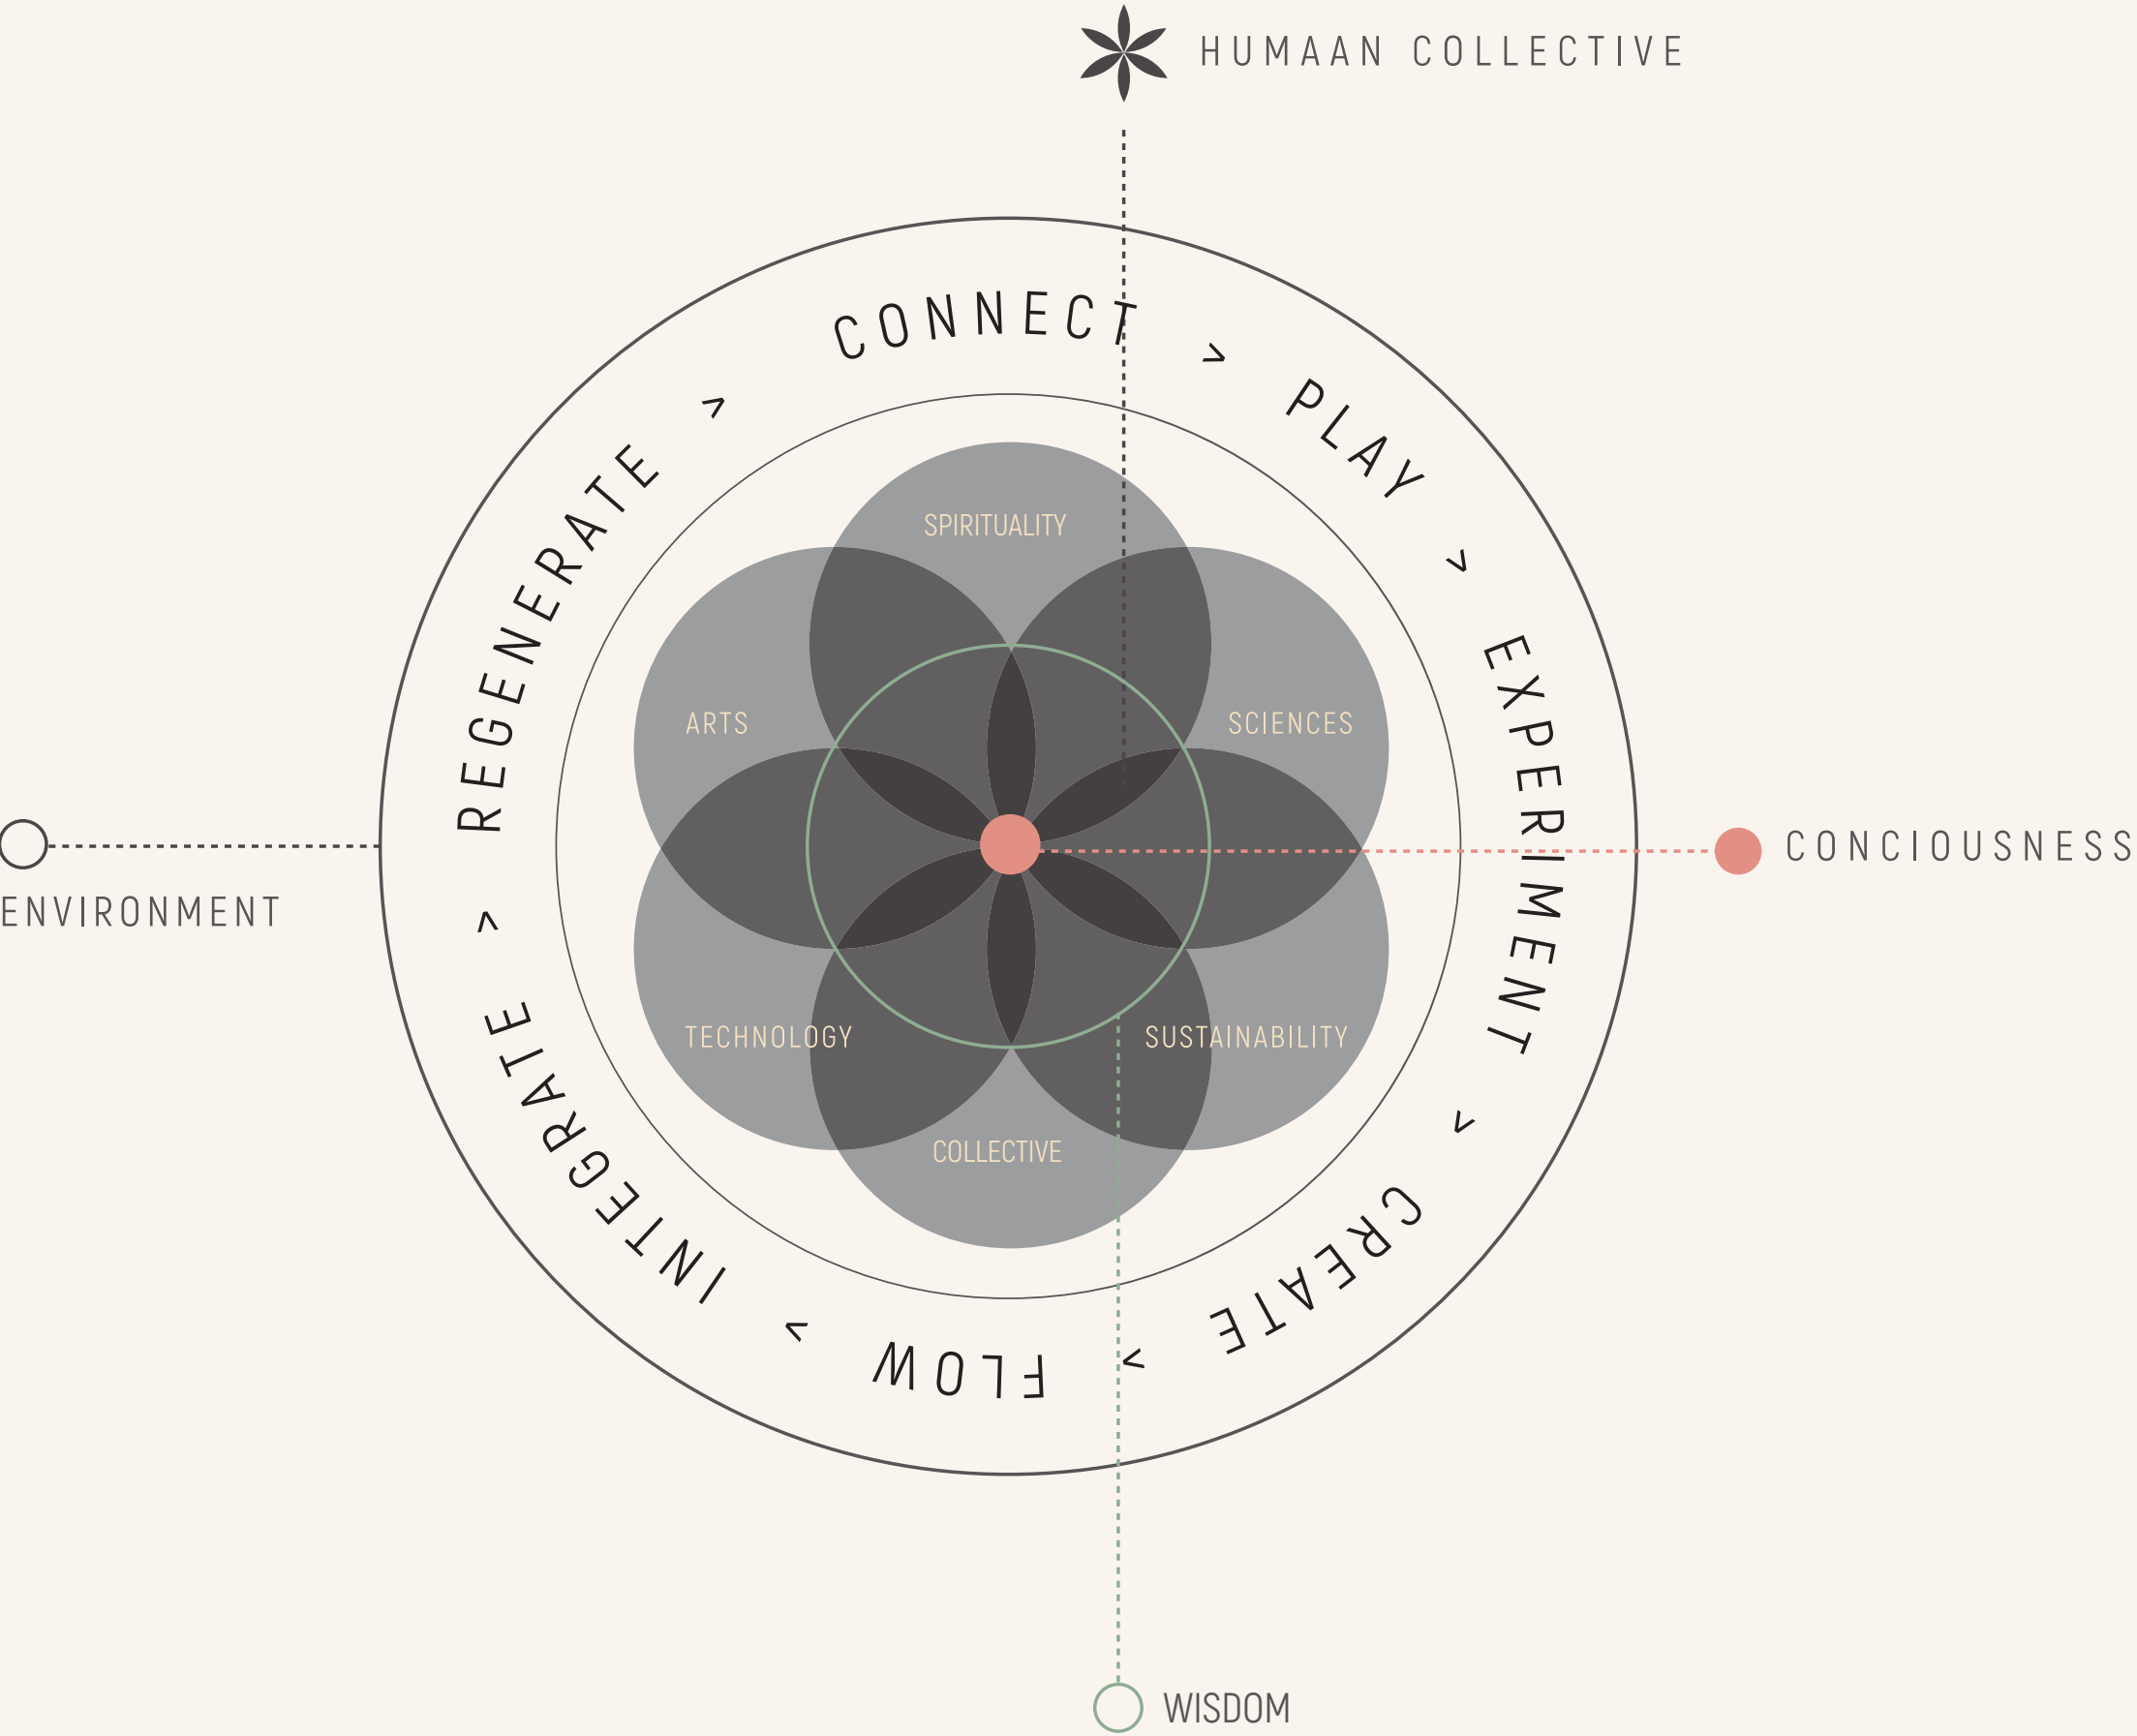

The moment is NOW. It’s time to become agents of change and ignite that fire inside each one of us. This is the perfect moment to start a revolution of consciousness.

“Never in the history of humankind as we know it, we’ve had the technological, and Infrastructure capabilities to fix every core fundamental problem that we face as Humanity.”

(SADH GURU)

FRAMEWORK

ZUNYA SEED OF LIFE

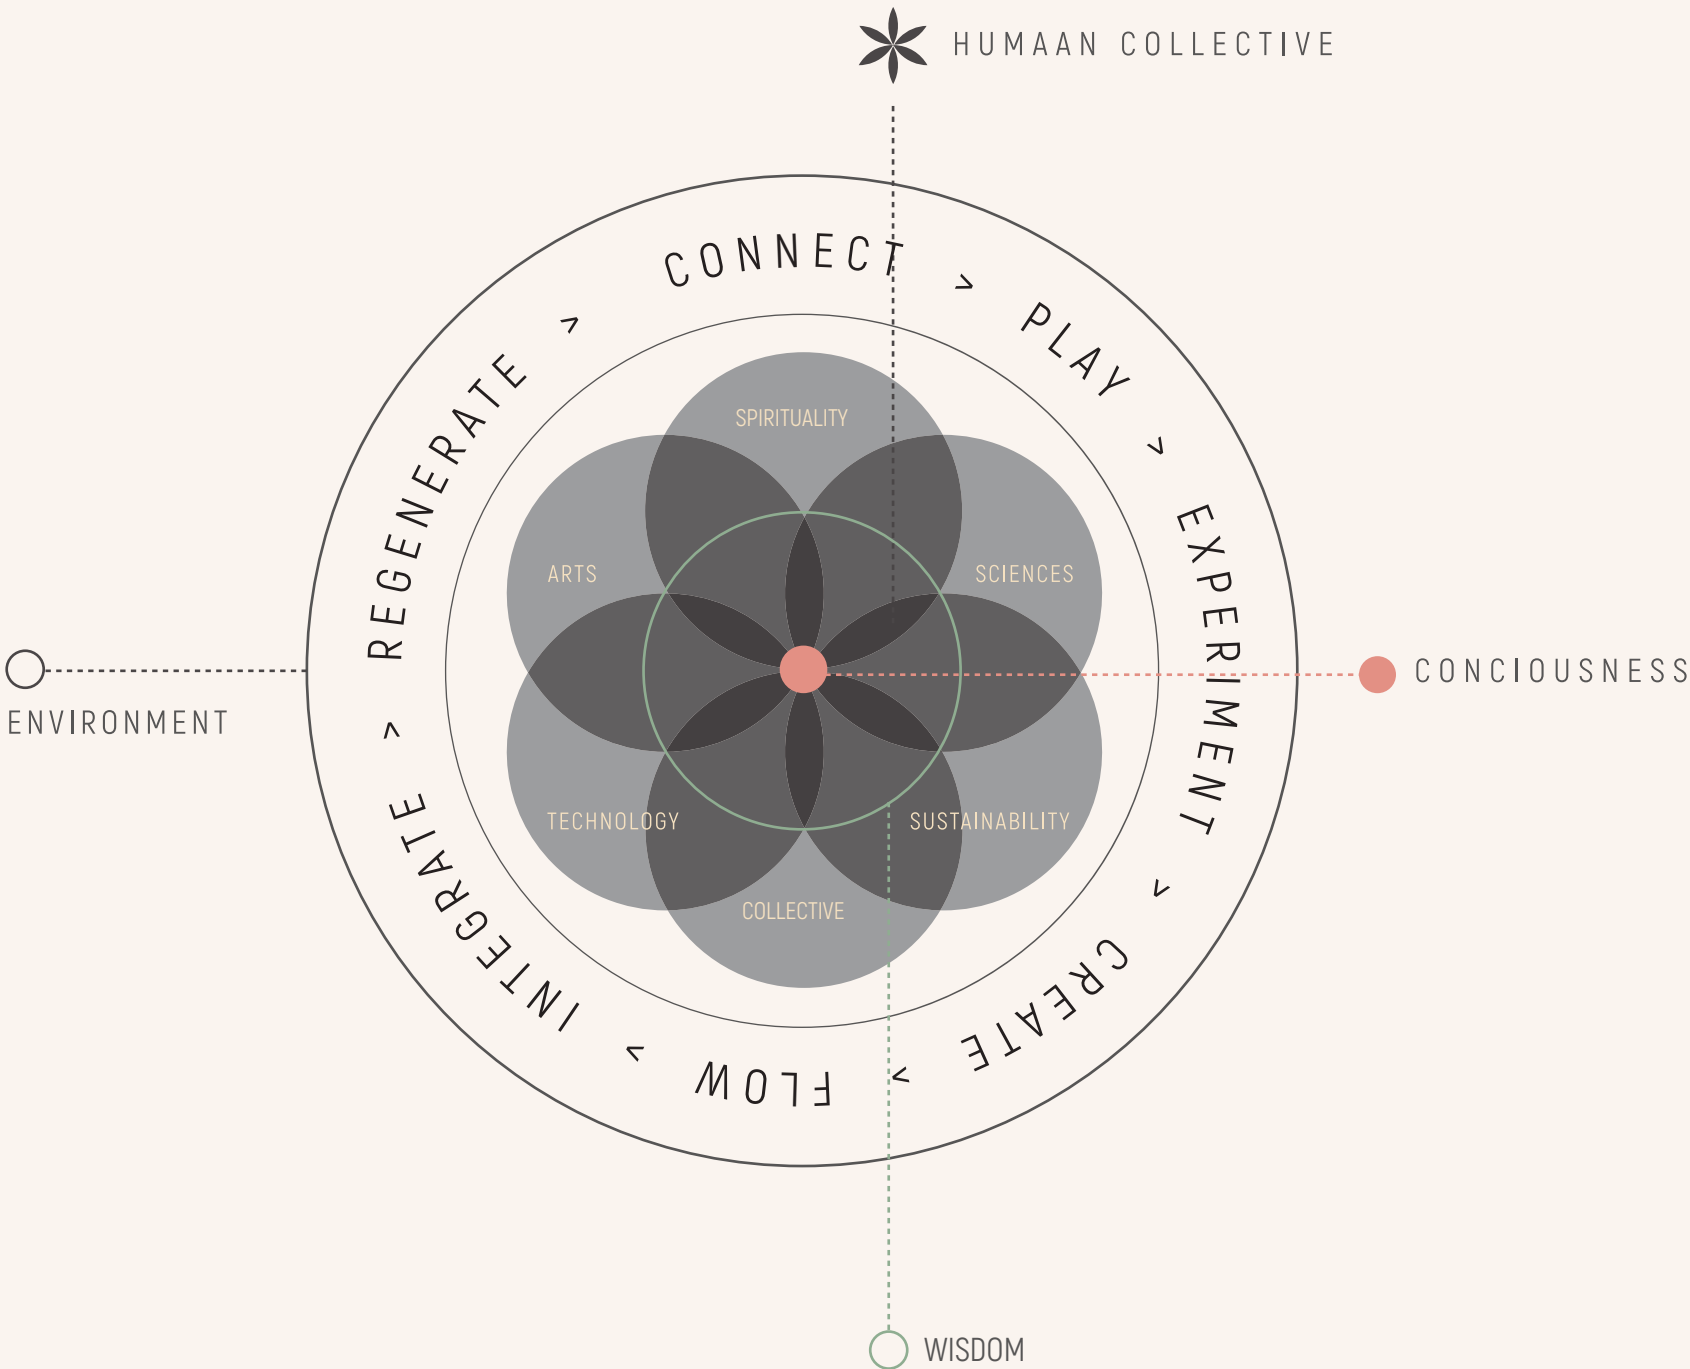

We will use the Flower of Life, the Flower of Life is the basic template for everything in existence, all geometric forms can be found within it. The flower of life symbolises creation and reminds us of the unity of everything: we are all built from the same blue print. (Seed of life- believed to be the template for everything in existence) as the framework for Zunya. It is composed of 7 circles: 6 circles or fields that surround and overlap with each other and are all connected by the 7th circle, as such creating an inner flower and a central point or source. The inner center is the Wisdom.

Everything Co Created at Zunya is based on the intersection between our fields.

Our different fields are the departments in which our collaborators will create experiences and develop the tools for our future guests, and even for themselves, to be able to connect, play and experiment, flow, create and regenerate at a deeper level.

Brand Values

BRAND PHILOSOPHY

R A D I C A L H O N E S T Y

We advocate fearless, radical honesty – with ourselves, first and foremost - and then with others. Honesty goes beyond just telling the truth: it is about being real with ourselves. Being honest isn’t always the easiest thing to do, or the most comfortable thing to do, but it is the right thing to do – it is the way forward – and it takes courage. It takes courage to look at yourself and navigate the depths of your own psyche.

P R O F O U N D H U M B L E N E S S

The wealthiest is not the one that has the most, but the one that needs the least. Being aware of our infinite potential we remain grounded by being of service to ourselves, others and nature. Always open to give and to receive, from a place of love. Accepting what is and letting go of what is not with an open heart and an open mind.

E T E R N A L G R A T I T U D E

The key towards a more peaceful way of being. Living in a constant state of gratitude allows us to recognize and better appreciate the amazing perfection that unfolds all around us. Accepting the beautiful blessing that we receive. Embracing the beautiful challenges that are presented to us as an opportunity for growth and transformation.

I N F I N I T E C O U R A G E

The sparkle that ignites the fire that resides within each and every one of us, that which has no limits. The infinite force that pushes us forward. Allowing us to start and embrace change, to take action, to create, to be bold, to be different, to forgive, to work through all our fears and change them, so we are no longer affraid to love and to catalyze positive transformation through self discovery and collective exploration.

E X I S T E N T I A L F L E X I B I L I T Y

We recognise that change is the only constant. As such, we must have the willingness to accept, to adapt and to initiate a positive transformation within our being. We gather new perspectives as we collectively regenerate the way we live.

B O U N D L E S S C O M P A S S I O N

Having the Awarness to nurture, support and understand the pains that we experience. We go out of our way to help and respect our individual and collective challenges.
